

DigiCert is the industry's most trusted and widely respected provider of high-assurance TLS/SSL certificates, trusted by the world's top companies to secure billions of transactions, worth billions of dollars, every day. For good reason. Since their founding two decades ago, DigiCert has been committed to doing what's right for the internet. From innovative tools to make the certificate lifecycle faster and easier to manage, to security solutions for the post-quantum computing age.

DIGICERT SECURE SITE PRO TLS/SSL CERTIFICATES

DigiCert Secure Site Pro is the premium standard in TLS solutions for businesses who take securing their data and digital identity seriously, with superior security features available first to Secure Site Pro customers, simplified management and enhanced performance from the world's leader in digital certificate solutions. Your brand's reputation is irreplaceable. Don't trust your online identity to anyone other than the world's leading Certificate Authority and their most-complete website security

TOP 5 REASONS TO ESTABLISH TRUST FOR YOUR ONLINE PRESENCE WITH SECURE SITE PRO

3 DIGICERT SMART SEAL

Patent-pending, globally tested and proven to help your website, login pages and marketing forms win the trust of customers.

1 ONLY CERTIFICATE WITH CT LOG MONITORING

Proactively monitor the domains that are important to you to help ensure that certificates are valid and in-line with your organization's policies.

4 PRIORITY VALIDATION, PROVEN SUPPORT

DigiCert Secure Site customers get exclusive access to our fastest, most painless OV and EV validation processes.

2 FIRST COMMERCIALY AVAILABLE PQC TOOLKIT

Start preparing your network today for the quantum cryptography of tomorrow with our PQC toolkit.

5 INDUSTRY-LEADING MANAGEMENT CONSOLE

The best certificate demands the best platform. With enterprise-grade tools designed for automation and ease of use, the DigiCert Partner Platform simplifies certificate management from issuance to renewal. Through our easy to use APIs, our partners can pass on to their customers any feature found in our management console.
